EDUCATION

University of California, Los Angeles Los Angeles, CA | Expected June 2028
Business Economics and Computer Science | Major GPA: 4.0/4.0 | College Honors

Foothill College Los Altos Hills, CA | Sept 2024 – June 2025
GPA: 4.0/4.0

EXPERIENCE

Vabrato Real Estate San Carlos, CA
Product Marketing Intern *Feb 2026 – Aug 2026*

- Mapped the buyer and seller journey through client feedback, turning recurring friction into prioritized requirements for process changes adopted across the brokerage.
- Led go-to-market for a $9.8M listing, aligning marketing, design, legal disclosure, and vendor partners on one launch timeline and clearing every milestone within the first month.
- Owned a 400+ subscriber newsletter end to end, defining engagement metrics and running A/B tests on creative and send timing.
- Analyzed pricing and competitive positioning across MLS, public records, and third-party data, turning findings into pricing and positioning recommendations for sellers.

Evergreen M&A Remote
Project Manager Intern *Feb 2025 – Oct 2025*

- Led a team of analysts across concurrent engagements, defining scope, requirements, and delivery milestones to speed up turnaround.
- Directed market and competitive research on acquisition targets, turning data into recommendations adopted by senior stakeholders.
- Mentored junior analysts on modeling and documentation standards, reducing revision cycles.

M&A Research Intern *Sept 2024 – Feb 2025*

- Built financial models on revenue, cash flow, and valuation for sell-side clients with $5M to $50M enterprise values, shaping pricing strategy with 100% data accuracy.

PRODUCT EXPERIENCE

First Step | Product Lead | Anthropic API, Supabase, Vercel Aug 2026 – Present

- Interviewed 15 users and tested 5 hypotheses; found unclear tasks drove 7 of 8 stalls, then narrowed the target segment to career and school users, raising willingness to pay from 67% to 88%.
- Wrote the PRD and shipped a live AI web app that breaks vague tasks into one step a day, with a server-enforced rule that every first step takes 10 minutes or less.
- Defined success metrics and guardrails, including a 40% first-step activation target and an A/B test for a loss-aversion “stakes line”; benchmarked Todoist, Motion, Sunsama, and TickTick.
- Received mentorship and product feedback from a PM at Zoom.

RealCost | React, Anthropic API Mar 2026 – Apr 2026

- Built a home-buying tool that shows the true monthly cost and cash to close, including maintenance, tax, and insurance costs most calculators leave out; scoped from questions first-time buyers asked during my brokerage work.

Poogle | Case Competition hosted by Google & Foothill College | 2nd of 72 teams Nov 2024

- Placed 2nd of 72 teams (400+ participants) with an AI sensor device for early detection of digestive disease in adults over 65, across two written rounds, a video round, and a live final pitch.
- Built the business case with a team of four: sized a $37.6B TAM to a $30M SOM, set unit economics ($1,065 price at a 50% margin), and B2B channels through senior care and insurers.

LICENSES & SKILLS

Product: User Interviews, PRDs, Roadmaps, Success Metrics, A/B Testing & Experiment Design, Competitive Analysis, Market Sizing, Go-to-Market
